About Us

BENDIS Technologies (BETECH)

BENDIS Technologies is a Liberian based education innovation nonprofit organization supported by Destiny Hands International. It is dedicated to transforming education and strengthening communities in Liberia through innovative digital learning solutions.

Our Computer Literacy Program not only equips students and teachers but also empowers churches, pastors, and church workers with essential digital skills for effective ministry, communication, and community outreach.

PROGRAM OVERVIEW

The BETECH Computer Literacy Program provides practical, hands-on training in basic and intermediate computer skills for learners across schools, churches, and communities. Through our **SENDBOX** digital learning system, participants access a solar-powered, offline digital library and computer lab, enabling continuous learning even without internet.

Computer Literacy Program

Empowering Minds Through Digital Education & Ministry

Transforming Education & Ministry in Liberia

SUPPORT THE MISSION

A simple **One Dollar** opportunity once changed a life through computer literacy. Today, we are extending that same opportunity to students, teachers, pastors, and entire communities across Liberia.

Help us equip schools and churches with digital learning tools.

PARTNER WITH US

- We welcome partnerships with:
- Schools & Educational Institutions
- Churches & Faith-Based Organizations
- NGOs & Community Groups
- Donors & Sponsors
- Government & Development Agencies

WHO CAN PARTICIPATE

Students (Primary, Junior High, Senior High)
Teachers and School Administrators
Youth and Community Members
Churches, Pastors, and Church Workers
Faith-Based Organizations & Ministry Leaders

WHERE WE WORK

Currently serving schools, churches, and communities in Paynesville and Bensonville, Montserrado County, Liberia, with expansion plans across the country.

PROGRAM STRUCTURE

- 📅 Duration: 2 Months per cohort
- 👤 Class Size: 10 participants per class
- 🕒 Session Length: 90 minutes per session
- 👥 Total Participants: 30–50 per training cycle

Flexible scheduling is available to accommodate church programs and ministry training sessions.

AFFORDABLE & SUSTAINABLE MODEL

FREE COMPUTER LITERACY

- Registration Fee: \$25 per participant
- Special packages available for church groups and ministry teams
- Sponsorship opportunities for undeserved students and pastors

Expected Impact

- Increased digital literacy across schools and churches
- Empowered pastors with tools for modern, effective ministry
- Improved teaching methods in both classrooms and churches
- Greater access to faith-based and educational digital resources
- Enhanced communication, administration, and outreach
- Bridging the digital divide in undeserved communities

TOGETHER, WE CAN BUILD A DIGITALLY EMPOWERED LIBERIA
